

Technical Project Lead

Job Description

Are you a passionate and inquisitive leader with a knack for blending technical expertise and a science background? We are seeking a self-motivated and mature Project Leader who can thrive in a remote and unsupervised work environment as well as on-site.

Mint Tek are currently looking for a dynamic project leader with a tech-savvy edge, unleashing curiosity to manage various projects whilst driving commercial success.

Key Responsibilities

Technical Prowess: Leverage your science background and technical acumen to drive innovation and problem-solving in projects, creating an environment where cutting-edge ideas flourish.

Curiosity Unleashed: As a naturally inquisitive individual, you'll explore new possibilities, and continuously seek opportunities for growth and improvement within the business through current projects and creating new leads.

Commercial Genius: Your keen business acumen will play a pivotal role in shaping project strategies, ensuring quality, and achieving commercial success.

Collaborative Cross-Functionality: Seamlessly collaborate with diverse teams, breaking down barriers, and fostering a culture of teamwork to achieve project milestones with precision.

Empowered Remote Work: Embrace the freedom of working remotely while staying focused, organized, and committed to delivering top-notch results independently as per business needs.

Compelling Communication: Articulate complex ideas with ease, effectively communicating to stakeholders at all levels of seniority, inspiring confidence in your leadership and project vision.

Qualifications & Skills

- Bachelor's degree in a science-related field, engineering, or equivalent experience.
- Proven track record of project management excellence, driving successful outcomes.
- Strong interpersonal skills, empowering effective cross-functional teamwork.
- Demonstrated ability to thrive in a remote, unsupervised work environment whilst ensuring transparent communication with internal and external stakeholders.
- Exceptional communication skills, enabling you to engage with stakeholders of various seniority levels.

Benefits

- Medical insurance
- Pension
- Employee stock ownership plan (ESOP)
